

## State Online Library Resources for Genealogy

by Thomas MacEntee, [Abundant Genealogy](#)

Did you know that most states have a set of online databases, some available only to their residents? And that you can access these databases from home? This was news to me, but I've since discovered that I can get access to some great (and expensive) databases for FREE just by having a local library card. Not every state provides this type of service, but if your state is listed below, check it out and see what you can find to help your genealogy research! And even if you aren't a resident of that state, you'll still find interesting and useful research information!
